	A keratin treatment is a chemical process that smooths and shines frizzy hair. Results can last up to 4 months. Some versions of the treatment release formaldehyde when heated. Your hair will appear healthier, because it actually is.	Yogi Nanoplastia is a gentle, formaldehyde-free smoothing treatment ideal for all hair types, including fragile and color-treated. It delivers natural shine & a 5–6/10 straightness level, preserving movement & lasting 3–5 months.
